

REALITY CHECK – SAT AND ACT RANGES, 25TH-75TH PERCENTILE FOR ENROLLED STUDENTS AT VARIOUS SELECTIVE UNIVERSITIES AND COLLEGES NATIONWIDE

Data based on college Class of 2020 (entered college fall 2016) and include only those students who ENROLLED at each individual school, NOT all students who applied NOR all students who were accepted

PLEASE NOTE THAT THESE FIGURES ARE NOT FOR THE CLASS THAT JUST GRADUATED HIGH SCHOOL! These results are for students who will begin sophomore year in college in the fall of 2017. Why is this the case? Colleges and universities are not required to report test score data for an entering class until its spring cohort has been accounted for; many colleges admit students in the spring and so figures for the college Class of 2021 are not “due” until spring admits can be included

The figures below for SAT are derived from converting reported scores from the “old” SAT (pre-March 2016) to the “new” SAT range using the concordance developed by The College Board. Please recall that the students whose results are represented by these scores were seniors in March of 2016—there would have been no meaningful data for this class had figures from the “new” SAT had been utilized

The figures below for ACT were culled from the various sources noted below. For institutions that chose not to report mid 50% ACT results, the designation “DNR” (did not report) is used. I did not choose to create an ACT range based on the concordance developed by The College Board as noted above. While I am confident of the psychometrics behind creating this concordance to compare old and new SAT, I await a mutual effort between ACT and SAT clinicians to create a joint concordance before I make any formal comparisons between the two scales (in my own work with students, if I have only an SAT range, I will use the ISH Number Scale to relate this to an ACT, as in “A 1400 on the new SAT would be a 30-ish score on the ACT”). You are welcome to make such informal comparisons with these data

SOURCES: The Common Data Set 2016-17, The College Board; National Center for Education Statistics (College Navigator program); and various school websites

Yale University (CT)	1470-1600	32-35
Yeshiva University (NY)	1160-1420	23-30

Please recall that these figures are standardized test ranges—they are NOT “cut-off” scores or lines of demarcation. Please also recall that standardized testing is never the most important aspect of college admissions—they are not *unimportant* but they are not the end-all and be-all of acceptance. These figures do not imply or infer in any fashion whether a student will be accepted or denied at the schools to which s/he applies. And remember—if you have specific or more detailed questions or concerns, call the admissions office(s) of the college(s) to which you apply!
